November 21, 2007

Sir:

Applicants respectfully request the entry of the present amendment and Sequence Listing into the disclosure of the above-identified application as follows:

Remarks begin on page 2 of this paper.

REMARKS

Further to the amendment filed October 17, 2007, a substitute Sequence Listing which replaces the previously filed Sequence Listing is provided herewith, in paper and disc formats.

Applicants hereby state that the attached paper and computer readable copies have the same content, and introduce no new matter into the present application. As stated in the amendment filed October 17, 2007, the originally filed specification erroneously indicated a 13-40 fragment (SEQ ID NO : 1), instead of the 13-39 fragment of the HARP factor as otherwise disclosed and claimed. The specification at page 6, line 22 of the specification to correct the obvious error.

In this regard, the specification and claims are commensurate with the submission of the present Sequence Listing.

As a result, it is respectfully submitted that the above-identified application complies with the requirements for patent applications containing nucleotide sequences and/or amino acid sequence disclosures.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 25-0120 for any

additional fees required under 37 C.F.R. § 1.16 or under 37
C.F.R. § 1.17.

Respectfully submitted,
